EVERDIGM GENERATOR SET

Power up for bright tomorrow with **EVERDIGM**.
And start boosting up your satisfaction with total solution
for construction machinery, **EVERDIGM**.

We, EVERDIGM, are delighted to introduce newly launched generator business as EVERDIGM. EVERDIGM offers the best products and solutions by positioning itself as one of the leading construction machinery companies. Having served construction industries with the quality construction machinery such as concrete pump, hydraulic attachment, crawler drill, tower crane, fire engine, lub-free bushing. EVERDIGM is now making another stride to supply the global market with Diesel Generator Set.

With ceaseless enthusiasm, EVERDIGM pursues Advanced Quality, Professionalism and Real Satisfaction from our development to service after sale. The above three core identities of EVERDIGM are our commitment for customers and they will have the benefit out of such high level of standard which are reflected on our products and service.

We promise our everlasting support will be carried out at all stages of product life cycle from customer's purchasing to commissioning, training and maintenance. Moreover, EVERDIGM strongly commits to create maximum value for customer's investment by quality, service and performance.

EVERDIGM

Diesel Generator Set

To achieve the excellent combustion and low fuel consumption, the state-of-the-art hightech injection and charging system applied

Easily accessible service and maintenance points contribute to the ease of service of the generator set

To improve the performance of products, high quality auxiliaries equipment applied

Arrangement device for easy operation

Economical operating and maintenance cost

Applied the digital controller
Display the various information of genset using the high capacity LCD
Optimized protection device built in the digital controller against genset malfunctioning and abnormal conditions
Remote control and monitoring with PC(MODBUS protocol)

High capacity interruption
Arc extinguishers confine and extinguish the arc drawn between contacts each time the circuit breaker interrupts current flow
High capacity silver alloy contacts for long useful life

Separated bracket are applied between base frame and control panel to protect vibration

2/3 pitch winding is applied to reduce the 3rd harmonics

Low Frequency and over exciting protection device as standards

Standards : IEC 60034-1, CEI EN 60034-1, BS4999-5000, VDE 0530, OVE M-10, NF 51-100,111, NEMA MG 1.22, CE

Specialized engine for genset

High power at low operation cost

Well-balanced to produce smooth and vibration-free operation with low noise level

Super quality and durability

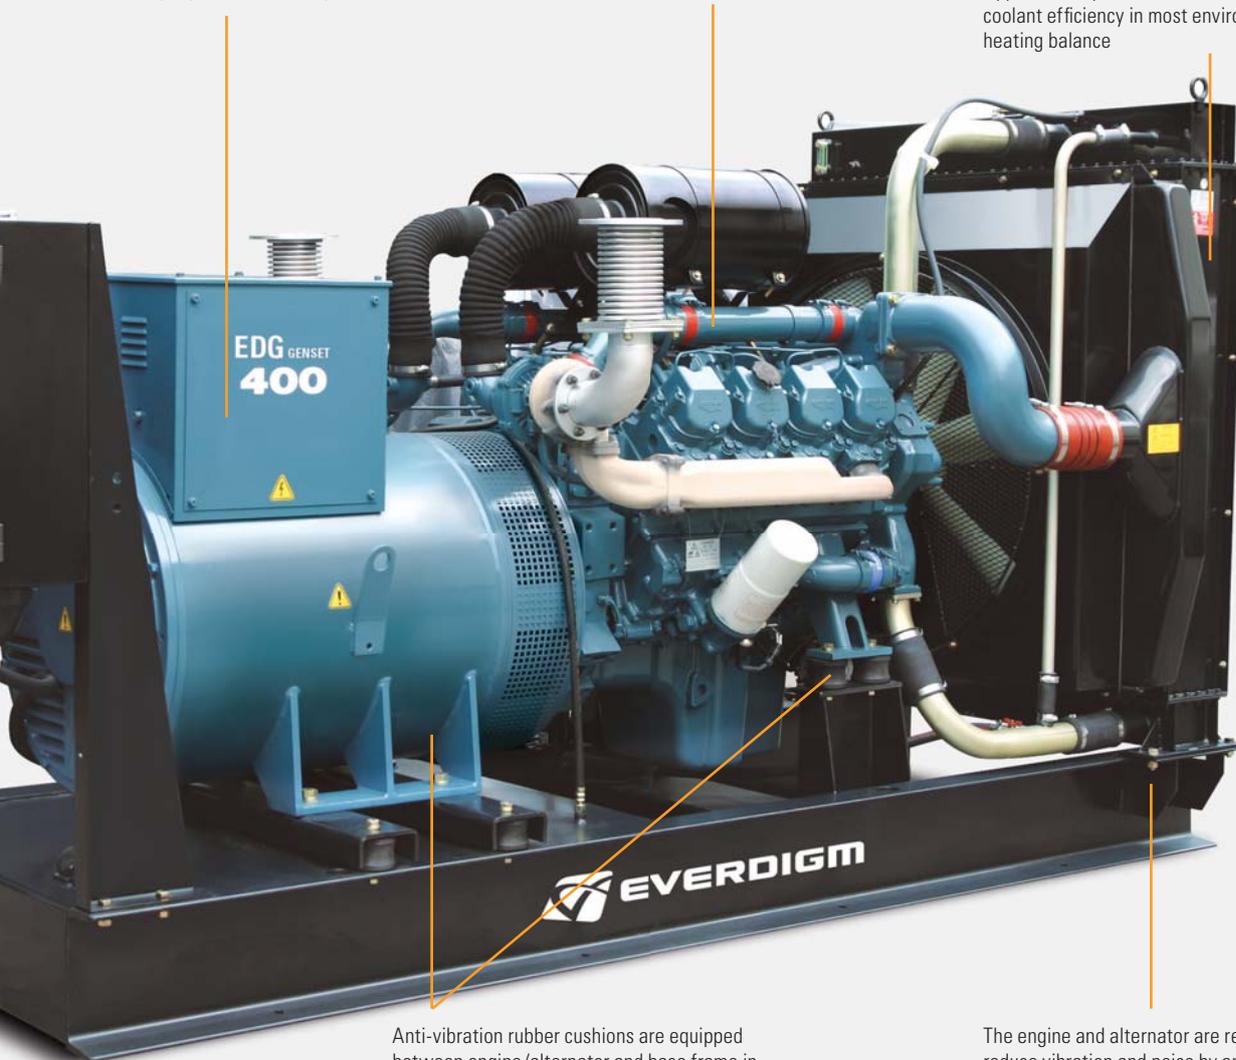

Coolant Water Heater

An aid to cold weather starting

To prevent winter-sowing in cold area

Constant circulation of coolant through the engine achieves even heat distribution

Applied the Optimized coolant system and improved coolant efficiency in most environments by analysis of heating balance

Anti-vibration rubber cushions are equipped between engine/alternator and base frame in order to absorb vibration

The engine and alternator are resiliently mounted to reduce vibration and noise by analysis of strength and stress

The standard fuel tank includes suction and return lines with a sight level gauge and drain plug

EVERDIGM

Diesel Generator Set

We will supply our products as the customer's requirement through variety product line with rapid actions

We shall digital controller the genset shall be equipped digital controller as a standard

01 STANDARD (SKID TYPE)

Applications : For Standby and Prime Power
Installation : Indoor
Apartment, Commercial Building, Factory, etc

04 BONNET TYPE

Applications : For Standby and Prime Power
Installation : Outdoor
Stony Mountain, Mine,
Construction Work, etc

SELF STANDING CONTROL PANEL

Optimized wiring to prevent wrong connection
Offering economical solution with compact sizes
Built in the various protection device

ATS(Automatic Transfer Switch) Control Panel

Manual or automatic operation
Minimum switching repercussion of coil change by the unique latch mechanism
One-coil-change system
Superior contacting capacity
Latch condition is visible with transfer position indicator
Control switches located on the front of the door for ease of operation
Excellent breaking capacity designed for large arc extinguishing chamber sufficient enough to interrupt a large amount of electric current

02 SOUND PROOF TYPE

Applications : For Standby and Prime Power
 Installation : Outdoor
 Apartment, Commercial Building, Factory,
 Fish-farm, Gas Station Construction Area, etc
 Restriction are for noise : Noise level is below
 75dB[A] at 7m

03 TRAILER TYPE

Applications : For Standby and Prime Power
 Installation : Outdoor
 Airport, Harbor,
 Road Construction Work, etc
 Easily Move to not prepare power system area

05 GAS GENSET

Applications : For Prime Power
 Installation : Indoor
 Apartment, Commercial
 Building, Factory, etc

MOUNTED CONTROL PANEL

Main Feature

Digital controller
 Easy operation and control
 Maintenance free
 kW/kWH/PF meter as standds
 (Compare to analogue panel)

PROTECTIVE FUNCTION

Protection	Function	Engine Stop	MCB Trip	Alarm LED	Error Message	
Heavy Fault (Shut Down)	Alarm LED ON, Display Error Message (S: xxxxxxx) Engine Stop, MCB Trip	Low Oil Pressure, High Cooant Temp, Fail to Start, Over Speed, Emergency Stop, Over Voltage	X	X	X	X
		Over Current, Under Voltage, OCGR(option)	N/A	X	X	X
Light Fault (Warning)	Alarm LED ON, Display Error Message (W: xxxxxxx)	Failure MCB, Failure Charging, Over Load, Low Coolant Temp, LFO Level(option) Battery Low/High Voltage	N/A	N/A	X	X

EVERDIGM

Diesel Generator Set

A special Manufacturer of digital generator set

Applied the optimal algorithm in the digital controller

PC MONITORING AND CONTROL SYSTEM

Monitoring & Control with Computer

Monitoring and control generator set
 Communication situation
 Select line to line or line to neutral
 Event of alarm or operating
 Emergency stop
 Indicate of LED State

Display

Frequency (Hz)
 Engine speed (rpm)
 Three phase line to line and line to neutral voltage (Vac)
 Three phase current (A)
 Active power [kW], kW hour(kWH)
 Power factor (P.F.)
 Running hours (Hrs)
 Oil pressure (bar)
 Coolant water temperature (°C)
 Battery voltage(Vdc)

Control Function

Fail to start
 Adjustable starting attempt/starting time
 Emergency stop
 Adjustable pre-glow/cooldown time
 Control main circuit breaker
 Check state of LCD/LED
 Adjustable mains power live/failure sensing time

LED Indicator

Alarm	Emergency stop
Manual mode	Auto mode
Remote mode	Running
MCB close	MCB trip

FUNCTION IN ACCORDANCE WITH OPERATING MODE

ITEM	Island Mode			Parallel Mode	
	Manual	Semi-Auto	Automatic	Semi-Auto	Automatic
Start / Stop	Manual	Automatic	Automatic	Manual	Automatic
Load Operation	Manual	Automatic	Automatic	Manual	Automatic
Parallel Operation	N/A	N/A	N/A	Automatic	Automatic
Load Dependent Start / Stop	N/A	N/A	N/A	Manual	Automatic
Priority Selection according to running hours	N/A	N/A	N/A	Manual	Automatic

Note 1. MCB : Main Circuit Breaker, OCGR: Over Current Ground Relay, LFO: Low Fuel Oil Level
 2. "X": Applied, "N/A": Not Applicable

EDGC 10(for Island Operation)

Main Function

- Auto sequencing of genset
- Manual / Automatic / Remote operation
- Power monitoring with LED and LCD (2 line, 20 character)
- Alarm level : Heavy fault, light fault(Display LCD)
- Remote control and monitoring with PC(MODBUS Protocol)
- Backlight-panel lighting with time delay off
- Totally sealed front panel against noise
- Point-to-point wiring

AGC(Automatic Genset Controller, For Parallel Operation)

Main Function

- Parallel operation between generator set
- Parallel operation with main power
 - Base load mode (Apply fixed load)
 - Peak shaving mode (Apply peak load)
 - Load take over mode (Instead of mains power if power failure notify)

PROTECTIVE FUNCTION

Protection	Function	Engine Stop	MCB Trip	Alarm LED	Error Message
Heavy Fault (Shut Down)	Low Oil Pressure, High Coolant Temp, Fail to Start, Over Speed, Emergency Stop, Over Voltage	X	X	X	X
	Over Current, Under Voltage, Reverse Power OCGR(option)	N/A	X	X	X
Light Fault (Warning)	High Frequency 2, Over Voltage 2, Over Current 2, Over Load 2, Unbalance Voltage / Current				
	Failure MCB, Failure Charging, Low Coolant Temp, Battery Low/High Voltage, Low Fuel Oil Level(option), Failure Synchronizing, Over Load 1, High Frequency 1, Over Voltage 1, Over Current 1	N/A	N/A	X	X

Note 1. MCB : Main Circuit Breaker, OCGR: Over Current Ground Relay, LFO: Low Fuel Oil Level
 2. "X": Applied, "N/A": Not Applicable
